CRAFTING COMFORT, DEFINING STYLE

At SOLSTICE Comfort Solutions, we believe outdoor spaces should never be limited by the calendar. We were founded on a shared vision to elevate outdoor living through thoughtful design, quality craftsmanship, and lasting comfort – creating environments that invite you to stay longer, gather more often, and live well outdoors.

The name SOLSTICE Comfort Solutions is inspired by the natural turning points of the year, moments when light shifts and seasons change. Our purpose is to extend the seasons, allowing outdoor spaces to remain welcoming, functional, and comfortable well beyond traditional weather boundaries. We believe comfort should adapt, endure, and evolve with the environment.

Our collection features premium **marine grade and recycled poly furniture** built for both style and longevity, complemented by **commercial-quality umbrellas** that combine exceptional strength with refined design. We also offer industry-leading outdoor **heating and cooling systems**, ensuring your space remains comfortable and enjoyable in every season.

With SOLSTICE Comfort Solutions, outdoor spaces become more than places – they become year-round destinations. Spaces where comfort meets design, where durability meets elegance, and where every season is an opportunity to be outdoors.

Fastenings are not supplied for the Wall Mount Bracket. All sizings and conversions are +/- 1/16" / 2.5mm and are subject to change without notice. We recommend commercial installations use metric measurement for any umbrella spacing to ensure accuracy. The above dimensions make the assumption that you have installed your umbrella at the recommended installation height on your wall. If you have installed your Retreat lower or higher than recommended, you will need to add that difference to the above measurements.
